WHAT TWALA DOES

## One platform for every document

### Twala

The platform: everything teams need to upload, chat with, generate, annotate, sign, eNotarize, and collaborate on documents in one workspace.

### Ask Lex

The AI inside Twala, with Lex, Twala's AI mascot. Lex answers from your documents, names the files it used, and searches Philippine laws and jurisprudence when your files leave a gap.

### eNotary

Electronic notarization, in person or remote, through a Supreme Court-accredited Electronic Notarization Facility, with identity checks and the notarial register built in.

### HashOrigin™

The cryptographic foundation under every document: PKI digital signatures seal the file, and its fingerprint is anchored on Polygon, so anyone holding a copy can verify it.

ABOUT TWALA

Twala is a Philippine legal technology company and a Supreme Court-accredited Electronic Notarization Facility (ENF). Its platform brings AI contract generation and review, eSignature, electronic notarization, and secure storage together, with every document sealed and independently verifiable through HashOrigin™ technology. Founded in 2020, Twala serves more than 600 companies and 1.3 million individual users.

> “The Philippines deserves a digital future built on trust, not paperwork. That’s why we started Twala: to give every Filipino institution the tools to move at the speed of trust.”
>
> **Engr. Jeffrey Reyes**, Co-founder and Chief Executive Officer
